Librarian's Report

To the Trustees of the Stewart Free Library:
Gentlemen:—

The Librarian begs lief to submit the following report, being the 18th annual report showing its increase, circulation and condition since December 31, 1915.

Condition of the Library

There has been collected in fines and out-of-town cards,	\$20 52
Number of volumes in the library December 31, 1915,	5985
Number of volumes in the library December 31, 1916,	6261
Showing an increase of 276 volumes classified as follows:	
General Works,	75
Sociology,	48
Natural Science,	8
Useful Arts,	3
Fiction,	115
History,	10
Geography and Travel,	8
Biography,	8
Religion,	1
	<hr/>
	276

CLASSIFIED CIRCULATION

General Works,	54	Fine Arts,	38
Philosophy,	4	Poetry,	47
Religion,	30	Miscellaneous,	208
Sociology,	72	Fiction,	5932
Philology,	2	Geography and Travel,	90
Natural Science,	59	Biography,	90
Useful Arts,	29	History,	43
Total,		7,192	

	Days Open	Issue Daily	Average
January,	14	725	51
February,	12	715	59
March,	13	751	57
April,	13	666	51
May,	14	492	35
June,	12	484	40
July,	14	658	46
August,	13	502	46
September,	13	439	34
October,	13	565	43
November,	13	585	45
December,	13	610	46
	157	7,192	45

The circulation in Miss Sawtelle's branch library has been 200 making the total 7,392.

There have been four branch libraries of 25 volumes each placed in the rural schools; three more are being prepared so that eventually each district will have access to the library books by using the school as its library.

The Children's Department has been well patronized. It has rounded out the use of the library and its influence has been very noticeable, and as the children ad-

vance in the grades it will prove itself a valuable stepping stone. While some of the larger towns and cities have long felt the valuable asset such a department is to the library, and have created such whenever funds could be had, no other town in the State of Maine, the size of Corinna, has been so fortunate as to have such a provision made for the children to acquaint themselves with the library.

LIBRARIAN'S REPORT

There has been added interest in the reference work done by the students of the Academy and the upper grades. This work should be encouraged by both parents and teachers. Not only is the scope of the student's knowledge broadened, but it teaches him the habit of looking outside of his everyday textbooks for material.

Respectfully submitted,
DELLA M. WINCHESTER,
Librarian.

Report of Town Clerk

From Jan. 1, 1916 to Dec. 31, 1916.

Number of births recorded,	17
Number of marriages recorded,	16
Number of deaths recorded,	29

Respectfully submitted,

GUY C. NUTTER,

Town Clerk.

Treasurer's Report

Guy C. Nutter, treasurer, in account with the Town of Corinna for the year ending February 26th, 1917.

Report of Superintending School Committee

To the Citizens of Corinna:

We submit herewith our report for 1916.

No extensive repairs have been made on any of the school buildings during the year just past with the exception of the schoolhouse in the Bassett district, which was painted two coats and some minor repairs made early in the summer; the roof of the schoolhouse at the Centre was newly shingled on the south side and a new roof which was badly needed was put on the piazza of this schoolhouse. This schoolhouse is badly in need of paint. Also, those in the White, Bond, Town Farm and Deanville districts.

Much of this would have been attended to this season but material has been so expensive and labor so scarce and high, that it was deemed advisable to postpone all but the most necessary repairs with the idea in mind, that perhaps, another season might afford some relief from the high prices which then prevailed.

The heating plant at the village school which in the past has caused so much trouble, was re-installed during the vacation between the fall and winter terms, under the supervision of Mr. Roscoe Burill of Dexter, and, where a year ago it would not properly heat any one of the rooms in this building, now all four of them are nicely warmed and ventilated, and there has been

no trouble whatever to afford ample comfort for both teachers and pupils, even during the coldest days of the past two months. We wish you to bear in mind, however, that soon you will be obliged to replace this furnace with another, as owing to its having been improperly installed when first put in the building it was necessary to overwork it and run heavier fires than it could properly stand. Consequently the period of its usefulness has been much shortened, but as long as it can be kept in its present condition and cared for by a competent janitor, no further trouble will be experienced in properly heating the four schoolrooms in the building.

Each schoolhouse in town was thoroughly cleaned just before the commencement of the fall term and it is our opinion that this should be done at least twice a year.

At the commencement of the fall term the Academy was temporarily short of funds and was much in need of a few immediate supplies to accommodate the increased number of students entering the school. One of the things most needed was some recitation chairs, and your school board, knowing the conditions there, deemed it within their rights to take from the repair department of the common schools sufficient funds to purchase a reasonable number of these chairs, and loan them to the academy, they to remain the property of the town and to be removed from the academy to any school or number of schools in town whenever needed. We accordingly purchased 18 of these chairs but the bill covering them has been held up on the grounds that there was nothing with which to pay it. Please note the unexpended balance remaining in the repair department, from which it was our wish to draw a sufficient amount to pay this bill and then consider it for yourselves.

The various school leagues have been active and some very attractive furnishings have been added to the rooms which reflects much credit on the teachers and pupils in their efforts to brighten up the interior of the schoolhouses.

Your appropriation for repairs this spring should be \$500.00 which, with the unexpended balance remaining in this department, will be sufficient to take care of the repairs now needed on the different schoolhouses in town.

We wish to thank the superintendent, teachers, parents and all the citizens who have helped to make our work pleasant and who have been in sympathy with our efforts to better school conditions in our town.

Respectfully submitted,

O. L. SPRAGUE,

GRANT BROOKS,

MRS. L. EVERETT HUTCHINS,

Superintending School Committee.

Report of Superintendent of Schools

To the Superintending School Committee and Citizens
of Corinna:

Ladies and Gentlemen:—

I have the honor to submit to you my second annual report of the condition and progress of the schools of your town.

The year has been one of excellent progress and has been characterized by most helpful co-operation of teachers, school officials, parents and other citizens.

The teachers have shown unusual interest in their work and, have as a whole, made good use of all opportunities to improve themselves professionally.

One of the chief aims of the year has been to adapt the work of the school to the real needs of the pupils, both present and future and to consider the interests of the individual child rather than the good of the mass though the latter consideration has not been neglected.

Upon all occasions have I urged upon you the necessity of visiting your schools that you may get first hand the acquaintance with the schools and teachers. Children see and hear things with children's eyes and ears, and interpret them from a child's point of view.

Schools cannot be accurately judged by depending wholly upon children's reports. Things happen every day in the best of schools that reported out of their

true condition would sound very unfavorable to the school. While, on the other hand, scores of most excellent things are done every day and not reported.

Visit the schools, get acquainted with the teachers and their methods and above all, extend a few words of sympathy and appreciation of what teachers, by faithful, hard work, are trying to do for your children. You will be surprised how much the efficiency of the school is increased by your presence.

We who are held responsible for the conduct of the schools are doing what we honestly believe is right and best for the child. God forbid that selfishness and disloyalty to the charges entrusted to us should be found in any school system.

We realize fully that you expend your money for the benefit of the citizens, present and future of Corinna, and not for the teachers and school officials.

CORINNA UNION ACADEMY

Great progress has been made in this school the past year. It must be a great source of pleasure to you friends of Corinna Union Academy to note the advance this school has made both in numbers, equipment and efficiency.

In the spring, Mr. Grant, Miss Sawyer and Miss Clapp closed the year's work with the usual very interesting Commencement week exercises. A class of 5 was graduated. Misses Jones, Bowler, Tracy and Messrs. Jacob Bemis and Millard Worthen.

At the opening of the fall term, by the efforts of those directly interested to make this school the power it should be in this community, a school was organized with 49 pupils on the register. Three new teachers, Mr. John A. Scott, Miss Lillian Philpot and Miss Margaret Buswell, whose popularity as a former teacher was well recognized, was placed in charge of this

school. There was an entering class of sixteen, made up from our own students and those from Exeter, No. Newport, St. Albans etc.

No words of mine can remind you of the excellent work these teachers are doing for your children. The words of a well-known man of your town when he said to me a few days ago, "We are having the best school up in the Academy that we have ever had for years," expresses my criticism of the work of this school. Qualified, experienced teachers; earnest studious ambitious, interesting boys and girls; the splendid co-operation of the home with its kindly influence, makes the ideal school.

The Trustees and School Committee issued a new catalogue during the summer, setting forth the proposed changes in the courses of study. A commercial course was added which includes Business arithmetic, Bookkeeping, Economics, Typewriting and Stenography. An Underwood typewriter was purchased and under the direction of Miss Philpot, this course is proving very popular and helpful. There are registered in the different courses, Bookkeeping, 10, Typewriting, 5, Stenography, 5.

This school should be liberally supported not for what it has done but what it can and may do for your children. You have teachers who can command bigger salaries and in accord with circumstances more money must be appropriated to retain them. Let every citizen of this town feel that the responsibility of maintaining this institution rests upon him.

It is gratifying to note that out of the class of 18 which graduated from our village and rural schools last spring 11 entered this school instead of going to other towns. There will be 21 pupils ready to enter High school this fall and probably all will attend here.

COMMON SCHOOLS

Village Schools. It was very gratifying to the parents, children and school officials that Mr. Kneeland was able to take his place in the grammar school again at the opening of the spring term. His work was much appreciated and together with the splendid co-operation of the rural teachers, a most interesting graduation was held. It is one of the best ways to combine our school work, to form some connection between the so-called "village" and "rural" schools. There should be no difference or distinction. All should be a part of one town system.

The graduates were: 2 from the Ridge school, Robert Aucock and Alice Thompson; 3 from the Fisher, Merle Thompson, Dorothy and Charlie Seavey; 2 from Pleasantvale, Marian Bates and Elmer Shorey; 1 from Bassett, Thelma Hatch; 2 from Town Farm, Donald Maxim and Elmer Chambers; 6 from the village, Wayne Sprague, Lymert Wood, Harold Veazie, Walter Ames, Mildred Ames, Vera Moore, Dorothy Dearborn; 2 from White, Hazel Crossman, Edwin Powers.

Miss Pitcher and Miss Ladd closed their year's work with the same degree of success which had been theirs during the year. It was a pleasure to those who had little children to know that Miss Pitcher decided to remain for another year. She is a teacher of great profit and her pupils show very careful training. Miss Morrison and Miss Furber, both teachers of experience and training, were placed in charge of the other schools. Both have done excellent work, very satisfactory to all. The crowded condition of these schools was a great source of discomfort to all. We, who were in the schools every day, felt that the pupils were not getting from the teachers what was rightly theirs, because the teachers were over-worked.

Promotion to relieve the congestion was resorted to, but in that there was a misunderstanding of the motive and that proved unsatisfactory. Mid-term or mid-year promotions are beneficial some times. Some children are able to do more work than others and should not be held back. No one is able to judge of these conditions more wisely than the teacher, and most parents are willing to see these things when it is brought to their attention in the light of explanation.

Near the opening of the winter term the superintendent's office was fitted up as best we could by robbing the other rooms of seats and desks, purchasing chairs, tables, etc, providing seating capacity for 19 pupils.

Mrs. Carrie Redman, a teacher of experience was placed in charge of this room. You may ask, "Has the change paid?" I say yes, and I ask you to honestly answer the question for yourselves, especially you friends who have children in this room.

In my opinion you have better arranged schools than ever before. I trust that these teachers may be retained for the coming year.

Rural Schools. For the most part the schools closed the spring term with most satisfactory results. The teachers tried hard to do their best work for the pupils. Meetings were held and different subjects and methods studied and discussed. School exhibitions have been held with excellent results and the interest of the homes has been increased.

There were few changes in teachers this fall and winter. Not all of these schools have been to our satisfaction and it was our aim to remedy these seeming failures. It is important that these children have the advantage of trained, experienced teachers. At the opening of the fall term. Miss Higgins was again in charge of the Fisher school. Through no dissatisfaction

on her part, but simply because of too few scholars to profitably conduct the school, it was considered best to convey the children to the Town Farm. A comfortable conveyance has been provided and with their added interest and enthusiasm in being with other pupils, I believe it means very much to these children. In many cases the closing of a small school is not economical but is advantageous to the children and it is only with the best interest of the child in mind that this school was closed. You might ask about the Deanville school. To me the situation is different than in the schools mentioned. The only school to which these children would rightly be conveyed is the Center. This school is already one of the largest and could not accomodate the Deanville school. Considering also the age of these children, I would recommend that this school remain in session at least during the present school year.

MUSIC

I am glad to report favorably on the interest and enthusiasm with which teaching of music was received in your schools. Miss Redman has worked hard and faithfully, considering the difficulties which any new departure must meet.

Much has been accomplished. The exhibition recently given has been proof enough of its advantage to your children. I call attention to her report.

Through your generosity and the additional fund from the State we are able to maintain 34 weeks of school this year. The fall term was increased from the customary 10 weeks to 14. While some may have thought the term too long, yet I find that the majority of schools in the State are arranged on that same schedule. School people believe it is better for children to attend school in the fall season than in the winter. Therefore, we maintained 14 weeks this fall, 9 this win-

ter and 11 in the spring. The teachers and parents find this a more satisfactory division of the school year.

TEACHERS' SALARIES

In comparing the salaries of teachers paid in Corinna with other towns, I want to say that we are fortunate to hire as capable teachers as we do.

The High school teachers can demand anywhere, considerably increased salary. The grade teachers, who have spent their time and money for training must be repaid. A teacher who will teach for \$8 per week will give you only \$8 worth of her time. You cannot expect any more. The board and living expenses have increased and yet, teachers are not getting any more salary. I believe you people in Corinna will see the situation as it is. I realize taxes is the thing considered, but should not the efficiency of your schools be considered? You cannot afford to hire cheap teachers.

BOOKS AND SUPPLIES

On account of the increased number in the High school and the introduction of the commercial department many new books were needed. The Readers, Spellers, Geographies are in wretched condition all over the town and should be replaced.

For the most part, teachers and pupils take good care of their books, but they will wear out.

Much criticism has been made in regard to supplying school paper. We are in no worse condition than all the other towns. We stopped the supply when the money was expended. Let me quote from a letter of Jan. 29, 1916, prices of arithmetic paper as 13c per 1000 sheets. Composition paper, 16 to 38c per 500 sheets. In a letter dated Dec. 7, 1916, the Arithmetic paper is quoted as 38c per 1000 sheets and Composi-

tion paper $44\frac{3}{4}$ to $59\frac{1}{2}$ c per 500 sheets. Even at these advanced figures, I believe it is more economical for parents to appropriate the money so that all may be supplied.

REPAIRS

The money in this department has been carefully expended. There is so much repairing to be done, with ten school buildings, \$400 will not care for all of them. Repairs were made where there was most immediate need. The heating plant in the grammar school building has been repaired with a decided advantage. The building at the Bond school should be painted. The Deanville building needs repairing if a school is to be maintained. Nearly every building in town needs paint and paper. The 6-7 grade room in the Grammar school building, while it was good enough for a superintendent's office and store room, needs to be made more attractive for a child's schoolroom.

MEDICAL INSPECTION

From reports there are few towns in the State the size of Corinna without Medical Inspection in the schools. The usefulness of this line of work in some ways is obvious and in others not so manifest. It depends largely upon its permanency. I believe the excellent physicians in this town will heartily co-operate in this matter with very little expense to the town. The results will amply justify the small appropriation needed. The duties are defined in the law: Each school physician shall make a prompt examination and diagnosis of all children referred to him and further examination of teachers, janitors and school buildings. The pupil so examined by school physician, when treatment is necessary, shall not be referred to the school physician for such treatment unless the school physician be the regular family physician, but shall be re-

ferred to the regular family physician or such pupil through the parents or guardian.

In conclusion, may I say that the pleasantest feature of my work with your boys and girls is the willing co-operation in any work, however difficult.

My heartiest appreciation goes out to the School Board for their loyal support. There is no body of people free from criticism. This Board has done those things which seem best for the general public. They have done their duty as they have seen it.

I wish to extend my thanks to the teachers for their loyalty and co-operation, to the citizens of Corinna for their interest and support. The co-operation of the home and school in promoting the individual welfare of each child is the final end sought and I hope to have with you a closer relation next year.

Respectfully submitted,

CLIFTON E. WASS.

We would have you consider the following appropriations for your schools the ensuing year:

Common schools,	\$2,300 00
High school,	1,500 00
Text books	350 00
School supplies,	150 00
Repairs,	500 00
Academy, aside from instruction,	200 00
Laboratory equipment,	50 00

REPORT OF TEACHER OF MUSIC

To the Superintending School Board and the Citizens:

The report of the past year's work in music in the Corinna schools, is herewith submitted. I have visited the village schools once each week, giving them a half hour, and the rural schools once every two weeks, giving them an hour at a visit.

The amount of work that needs to be done in music in the schools has been enormous and with the hearty

co-operation of the grade teacher, I feel that much of this work has been accomplished. It is hard to obtain visible results in one year, where the subject has so long been neglected, and my aim has been to give the pupils a good foundation for their further pursuit of music.

There is no short-cut to excellence in music, and in the earlier grades I have been as thorough as possible. In the eighth and ninth grades, the work has been carried on with the idea of preparing the pupil as far forth as possible for High school music. The children have learned to read music quite rapidly, and sing it musically. Much talent has been lying, practically dormant among the children in the grades, and it has been a surprise and pleasure to parents, teachers and pupils to discover the musical ability in so many children.

The Academy students have been singing almost entirely unison songs, owing to their inability to read music and to their untrained voices. The only way that part-song work can be done under the conditions that exist in the Academy, is to teach each part separately by rote. Among many music authorities and music teachers of experience it is considered practically impossible to accomplish any elementary work in High school, any syllable work being distasteful to the High school student.

It was apparent to me that the most necessary and desirable thing to be done in the Academy this year, was to get the entire student body into the singing habit, and after that, to correct their enunciation, etc.

I believe that this year has marked the beginning of a new era in Corinna Schools, by their having music, and it should be the duty of every Corinna citizen, who is interested in the welfare of the town, to see that this subject is never dropped from the school curriculum.

Respectfully submitted,

ELVIRA L. REDMAN.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To Clifton E. Wass, Superintendent of Schools:

Herewith I submit my report of Corinna Union Academy for the school year beginning in September, 1916.

In all 48 pupils have been registered. Of these 30 are girls and 18 are boys. By classes they are divided as follows:

Seniors,,	6
Juniors,	12
Sophomores,	11
Freshmen,	16
Special students,	3
<hr/>	
Total,	48

Of the 48 pupils registered 41 are residents of Corinna and 7 are residents of other towns. Daily attendance has been good; there has been little sickness, and no sustained absence on that account.

The new course of study has worked well. In the Commercial and History department we have in Miss Philpot an experienced and capable teacher, who has won the earnest co-operation of her pupils. Likewise Miss Buswell in the English and Modern language department has maintained a level of high efficiency.

In the Latin and Science department which I have had the pelasure of conducting, while sharing the Mathematics with Miss Buswell, the aim has been to give a thorough preparation for college. This also has been the aim of the other teachers in the studies they have which are required for that purpose.

The instruction in music has been a benefit to all the pupils, for all have been interested. Miss Redman has given us one hour each Tuesday. Other days we practice by ourselves. With the valued instruction we

have learned some new songs, as well as how to render many old ones much better.

The electric lights with which the building has been equipped have already proved their value. They will be found of greater use in the dark days of late Fall.

We have an abundant supply of chemicals for which we are fortunate amid the prevailing high prices. The Physics outfit is good; but a few new things are needed, and a few old things need repairs. The sinks in the laboratory need overhauling. There is need of another typewriter in the Commercial department; also of a few new maps and blackboards about the building. All these things can be procured without an unusual outlay.

In conclusion, I wish to extend to yourself my thanks through you to the Academy Officials and School Board for the kindness and trust with which they have treated me and my associates; and finally to Mrs. Hutchins and those citizens who with her made it possible for us to have the electric light.

Respectfully submitted,
JOHN A. SCOTT, Principal.

Corinna, Feb. 28, 1917.

Town Warrant

STATE OF MAINE

County of Penobscot, ss.

To J. W. Mullen, a constable in the town of Corinna,
county of Penobscot, State of Maine, GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of Corinna, qualified to vote in town affairs, to meet at the Town hall, in Stewart Library Building, in said town of Corinna, on Monday, the twelfth day of March, A. D., 1917, at nine o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To choose a Town Clerk for the year ensuing.

Art. 3. To consider and act upon the reports of the Municipal officers.

Art. 4. To see what disposition the town will make of the unexpended amounts of the several departments of 1916.

Art. 5. To see what sum of money the town will raise and appropriate for the support of poor.
